YMCA OF THE NORTHWOODS School Age Childcare Policy

Admission Policy and Procedure

Purpose

The YMCA School Age Program serves children ages 5 to 14 years of age. Our goal is to provide a unique, positive, educational and recreational experience for all children. Our Mission at the YMCA is to put Christian principals into practice through programs that build a healthy spirit, mind and body for all.

Philosophy

We believe that the early years have a profound influence on a child's personality, physical, intellectual and creative potential, self-esteem and sense of well-being.

Nurturing and supporting healthy socio-emotional development is one of our most important jobs. Young children need to learn to trust others, express themselves in acceptable ways, and gain independence and self-control. Teachers/caregivers foster trust by interacting warmly with children, providing a consistent, well balanced daily routine, modeling and guiding behavior, and providing individualized attention and opportunities to socialize with peers and older/younger children.

Children learn through active exploration of their environment. We use a developmental "hands-on" approach to learning: We provide space, time and materials so that children can make choices and explore, experiment, question, create and express themselves.

We view every experience in daily living as a learning opportunity. We use the children's interests and experiences and the teachers' knowledge of developmental stages to create the curriculum in each classroom. Units and themes provide a rich variety of experiences for self-expression sensory exploration of the natural and physical surroundings, intellectual stimulation, large and small motor activities, social interaction, and opportunities to hear and use language.

The YMCA does not discriminate on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program.

Licensing

1. The YMCA is licensed to provide care for a maximum of 42 children, ages 5 through 12 years. We do not discriminate against any child, family, or applicant on the basis of race, creed, color, sex, family income, handicap, political persuasion, national origin or ancestry.
2. The School Age Program will display the group day care license, DCF 251 Group Child Care Rules and Regulations and Center Policies on or near a bulletin board near the entrance for parent view. This license will reflect days, hours, and months of operation, children to be served as well as maximum children to be served at any given time. The most recent licensing inspection report will be posted next to the license including any non-compliance or enforcement actions.

Hours of Operation

The YMCA School Age Program operates Monday through Friday after school. The program operates from 3:00PM until 5:30PM throughout the school year and 6:30AM to 5:30PM on School's Day Out. The Program is closed for

YMCA OF THE NORTHWOODS School Age Childcare Policy

the following holidays: New Year's Day, Memorial Day, July Fourth, Labor Day, Thanksgiving, Christmas Eve and Christmas Day. In case of an emergency closing, parents should tune into local radio station or TV channel 12.

Parents who do not pick their child up by the designated time will be contacted personally. Staff will remain with your child for 30 minutes after closing at which point they will notify the local police department for further assistance. Please see our Fee and Billing Policy for late fee rates.

Enrollment Process

Parents can enroll their child into the Program by calling 715-362-9622 ext. 109 or online on our website. All required forms must be completed prior to attendance. There is a one day waiting period from the time the forms are provided to the Program until the child may begin attendance. They may call 715-362-9622 ext. 109 with any questions

Orientation Process

A parent orientation will be set up with the director prior to their child's first day of attendance. During the orientation the parents will be given a tour of the room and parts of the facility the children use. They will be shown the parent board where the policy book, activity schedule, snack schedule, and parental notices are kept along with licensing information and the monthly parent newsletter. Parents will also be given a handout clarifying items they are to provide and what is provided through the School Age Program, and shown where their child's portfolio, mailbox and cubby will be.

Attendance Policy

We only accept full time enrollment. If a child will be absent from the Afterschool Program, the center must be notified by 3:00PM. On a School's Day Out, the center must be notified within 30 minutes of your scheduled arrival time. You may notify the center by calling 715-362-9622 ext.141 directly. If we do not hear from you by these times on their respective days, the School Age Staff will contact the family. This is for your child's safety.

Parents and Teachers will record the child's attendance on the daily sign in/out sheets provided. The sign in/out sheets will include the arrival and departure times. If the child is arriving or departing without an authorized pick up being present the teacher will record the time and initial. This may only be done if a current alternate arrival/release agreement is on file for the designated time. Teachers will maintain responsibility for every child in their care at all times. Information on late pick-up and absences is available under the Fee and Payment Policy.

Waterfront Policy

YMCA OF THE NORTHWOODS School Age Childcare Policy

Purpose:

These policies and procedures are established in order to:

- Provide a safe, enjoyable, supportive and positive aquatic experience for all participants
- Provide a quick, effective response to any aquatic emergency
- Clarify expectations of staff and participants for aquatic activities

Definitions:

Lifeguard- a person currently certified in YMCA Life guarding or American Red Cross Lifeguard and on duty in an aquatics area, supervising an aquatic activity.

Aquatic area- is the physical site of a specific aquatic activity. The aquatic area for swimming may be a pool.

Aquatic activity- any activity whether recreational or instructional occurring in, on, under, or near water.

Lookout- sometimes called a “watcher” or “observer” may be any non-certified staff member assigned by and under the direct supervision of certified aquatic personnel; used in addition to certified persons to be additional “eyes” watching swimmers or boaters.

The YMCA of the Northwoods recognizes aquatic areas and facilities as guarded.

Locker Room/Bathroom Areas

While in the locker rooms ratios will be maintained. All children will be within sight and sound.

If there is no opposite gender staff to help with supervision, the children will change into their swimsuits in the family locker room. If they are going on a field trip the children will change at the YMCA and put clothes on over their swimsuits until they get back so they can change out of their suits at the YMCA.

Aquatic Procedures

It is important to understand why these procedures are in effect, and what is expected of everyone involved.

With these procedures we will:

1. Prevent accidents before they happen.
2. Provide a quick, organized rescue of an aquatic victim- whether visible or missing
3. Allow students to know exactly what is expected of them in or out of the water
4. Inform every staff member of our expectations during the rescue attempt

Aquatic Staff will always wear a red lifeguard shirt, whistle, and carry a rescue tube.

All staff are trained to perform elementary non-water rescues and understand the duties and responsibilities involved when being a lookout.

Swim Checks-Necklaces

Each child will be necklaced with a break away necklace by their swimming abilities.

- Red necklace: Stop, stay in shallow water, parts of the test they did not pass.
- Yellow necklace: Caution, Not confident enough to be a green band, can go out in water that is armpit high when flat footed.
- Green necklace: Go, they pass the swim test.

**FOR YOUTH DEVELOPMENT
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY**

YMCA OF THE NORTHWOODS School Age Childcare Policy

Every swim day (or the first day of swim activities that week) all students will be advised of pool rules and policies. All students are given a red necklace until they demonstrate sufficient swimming ability. The aquatic staff will administer swim checks through the use of established association guidelines.

The purpose of the swim check is to ensure the weak swimmers are not in the deep end of the pool. The swim check will consist of the following:

1. Students will be advised of the purpose of the swim check
 - a. Anyone wishing to swim in the deep end must take and pass a swim test
 - i. The test requires that the swimmer swim the length of the pool without stopping and tread water upon reaching the other side of the pool
 - ii. The swimmer must show that he/she is comfortable with his/her face in the water

Students swimming abilities will be recorded and dated by the caregivers.

Checking Children In and Out of the Water

- Upon entering and leaving the aquatic area a caregiver will take a head count and do a roll call using the sign-in and sign-out sheets, matching face and name
- Children will only leave the pool with a buddy

Child Guidance Policy

The goal of the YMCA of the Northwoods School Age Program is to guide children in becoming cooperative, happy and responsible participants through positive, non-threatening, developmentally appropriate teaching techniques involving problem solving, communication and negotiation skills. To this goal we provide positive guidance, redirection and the setting of clear-cut limits for the children and for developing self-control, self-esteem and respect for the rights of others. We understand that there will be times when a child will become upset. Staff will first attempt to determine the cause of the distress. It may be related to a basic need such as hunger, sleepiness, or comfort, or it may be that the child needs some extra time and attention. At these times, we will stay calm and do whatever we can to help your child. Sometimes this may mean allowing the child to cry for a few minutes until

YMCA OF THE NORTHWOODS School Age Childcare Policy

they are ready and then try again. However, we may need your advice or assistance, and we won't hesitate to call you if we feel that it is necessary.

- A. Guidance shall not damage the child's self-esteem or embarrass the children involved. Redirection is used whenever possible. Limits will be displayed and reinforced through active listening, i.e. messages, giving information, contingencies, making choices and natural consequences. We do not use any physical punishments.
- B. Environmental room arrangements and setting of limits shall be carried out to help each child learn self-control, make correct choices, identify feelings and develop a healthy understanding and respect of feelings for others.
- C. Guidance shall be ongoing throughout the day in all activities in which children participate. The classroom environment will establish room limits.
- D. Room arrangement shall consist of preset limits in each area to enable children to recognize a problem in advance and determine what is expected of them in case of overcrowding in an area.
- E. Children will use the art of communication and negotiation in settling any dispute that arises between them. Caregivers will be in close proximity to encourage children, and to use active listening to help facilitate negotiation skills.
- F. Daily schedules and weekly lesson plans will be posted inside all classrooms and will be followed to provide consistency and to help children thrive and build their bond of trust with caregivers.
- G. Teachers may offer children with severe behaviors opportunity to think through their choices and discuss alternative options. The child may be asked to talk about their behavior with the director or wait in area away from his/her peers until the teacher may focus on the needs of that child. This time period should not exceed **three minutes**.
- H. Transitions will be quick and smooth in order to limit time spent in lines and waiting
- I. We encourage parental input and discussion on behavior concerns and ways to better meet the children's needs.

The Following Factors Shall Contribute to Guidance:

- A. **Modeling by Caregivers:** Demonstrate calm demeanor, politeness, and gentleness with children through actions and tone of voice.
- B. **Classroom Environment:** Provide optimal space for children to become involved in both group and solitary play. Classrooms will be arranged in specific areas, each with set limits and visually accessible to caregivers.
- C. **Planned Activities:** Provide optimal amount of activities to keep each child involved at his/her developmental level.
- D. **Related Curriculum:** Involve interpersonal relationships of children and siblings, identifying feelings and developing a positive self-image along with self-control, politeness, respect, and safety.
- E. **Ongoing Scheduled Evaluations:** Examine daily routine and evaluate transitional activities with the intent of accommodating the needs of all children.
- F. **Redirection Rather than Time Outs:** Awareness of classroom climate indicating potential misbehavior. Be informed of family situations, talking privately with children and families involved, and provide guidance. Give choices, and encourage communication and negotiation skills between children. **Time outs will only be used in extreme situations.**
- G. **Setting Clear Limits:** Discussion with children on what is expected and what is considered appropriate

YMCA OF THE NORTHWOODS School Age Childcare Policy

- behavior. Safety and respect for others are the main concern.
- H. **Development of Children's Self-Image:** In order to make guidance a learning experience and enhance the child's self-esteem, the caregivers will:
- a. Allow children to express their feelings by providing acceptable avenues; physical activities, discussions, group activities, and communication.
 - b. Allow children to express their vocabulary and show that all people have emotions and must use self-control.
- I. **Prohibited Treatment:** Caregivers who punish children in a manner prohibited by licensing will be counseled, which may lead to suspension or discharge without benefits. Children shall not be subjected to the following treatment:
- a. Spanking, hitting or other corporal punishment.
 - b. Verbal abuse or derogatory remarks
 - c. Tying, binding, or confining.
 - d. Withholding or forcing food or naps.
 - e. Punishing for lapses in toilet training.
- J. **Serious Guidance:** A serious guidance problem is defined as one in which a child is continually hampering the flow of the program in one of the following manners:
- a. Requiring constant one-on-one attention.
 - b. Inflicting physical or emotional harm on other children.
 - c. Referrals to outside resources such as doctors or counselors.
 - d. Withdrawal from the School Age Program. (See discharge policy)

Child Abuse Reporting

The School Age staff will notify the Oneida County Department of Social Services (DSS) whenever there is a child enrolled in the program or seen by a staff person who has injuries that are not suspected to be caused accidentally, when neglect is suspected, or when sexual or emotional abuse is suspected. The staff person will call Oneida County DSS with the specific information leading up to the belief that there is abuse or neglect. A follow-up *Abuse and Neglect Form* or letter will also be completed and sent in. Written documentation will be kept on all incidences of suspected abuse or neglect of a child. If necessary, as a result of a report of suspected abuse or neglect, staff will be prepared to testify in court using documentation previously written of all incidences of possible abuse or neglect of that child.

Discharge Policy

A child may be discharged from the program for the following reasons:

- Consistent behavioral issues.
- The child's individual needs cannot be met.
- Disrespect or abusive behavior to staff or children at the program.
- Jeopardizing the safety of the other children.

Staff will make every effort to work with the child and family taking into consideration the needs of the child, use of various behavior modification techniques, sharing information with parents and, with parent consent, referral to outside agencies. Staff will document observations and personally discuss options with parents developing a behavior plan in the process. The timeline may vary depending on the severity of the behaviors. Parents may appeal the discharge decision of their child in writing to the CEO.

YMCA OF THE NORTHWOODS School Age Childcare Policy
